

# SAMUEL MÜELLER

TRINITY COLLECTION

The pinnacle of Samuel Müller, TRINITY aluminum shower walls combine advanced digital printing technology with innovative materials to deliver exceptional performance and stunning design.

Although designed to shine in the shower, the TRINITY Collection also brings elevated style to kitchens, living areas, and other spaces throughout your home.

TRINITY COLLECTION

WHITE CARARRA used in three unique settings within the home.

▼ KI01 | **WHITE CARARRA** | Shower Space  
Finish: Glossy or Honed

While our TRINITY Collection is perfect for showcasing a shower, its wall panels can also enhance the style of various areas in your home, including the kitchen and living spaces.

▲ KI01 | **WHITE CARARRA** | Fireplace Surround  
Finish: Glossy or Honed

TRINITY panels are waterproof and heat resistant, making them a perfect choice for kitchen backsplashes. In addition, they're easy to cut to accommodate outlets and switches.

Finish: Glossy or Honed

## TRINITY SERIES HIGHLIGHTS

- Panels are each 4mm thick with 3 layers; a sandwich of thick aluminum on both the surface and back with a strong mineral resin core in the middle for strength.
- Technical qualities provide for strength and stability, with a structure that is highly water resistant.
- Each design has 5 random patterns for a very natural marble or stone appearance.
- Continuous wall patterns create a seamless, natural look across panels and beautifully mimics real stone.
- Surfaces are highly scratch resistant and are available in 2 different finishes; super high gloss and honed. Concrete panels come with a realistic textured finish.
- Lightweight for easy handling and installation.

## TRINITY - Shower/Tub Continious Wall Patterns

All Wall Sets include (2) color matched inside corner trim and (2) aluminum edge trim pieces. The seam in the 60" wide shower sets can be covered by color matched mildew resistant silicone adhesive or seam trim as your preference (sold separately).

All colors available in Glossy and Ultra Honed finishes, except Concrete KI34 (only in Matte Textured). Concrete KI34 only comes in Matte Textured finish with NO continuous pattern.

The TRINITY Collection folding continuous pattern Eco shower wall kits feature a continuous wall pattern creating a seamless, natural look that beautifully mimics real stone.

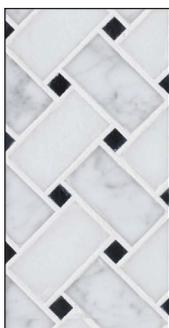

The flowing veins design minimizes visible breaks, allowing the pattern to move effortlessly across each wall for a more refined and visually stunning finished look.

Continuous Pattern

The TRINITY Collection also features 3 decorative Deco Strip pattern options which add a sophisticated accent to already attractive shower walls.

Vertical deco strips placed from floor to ceiling within the shower draw the eye upward. This creates the impression of higher ceilings and are ideal for smaller bathrooms.

Weaver White (WW)

Hexagon Off-White (HO)

Linear Creme (LC)

### 3 DISTINCT DECO STRIP OPTIONS

Choose from three eye-catching deco strip patterns, basket weave, hexagon, and linear, each designed in colors that beautifully complement TRINITY shower wall finishes. These coordinating options make it easy to add visual interest, texture, and a custom designer touch to any shower space.

As with any natural stone installation, no two slabs are exactly alike. Nature introduces subtle variations even in the simplest patterns. It is this natural movement that allows the eye to recognize the material as authentically natural.

Likewise, TRINITY panels also have nuanced patterns. For each pattern, each slab has 5 subtle yet different panel patterns that actually replicate the natural movement of real stone.

▲ K103 | **BLACK CARARRA**  
Finish: Glossy or Honed

The result is a technology that beautifully replicates real-world surfaces with remarkable accuracy. This innovation expands the idea of “bathroom” panels into a solution for full-room installations. While TRINITY panels are ideal for showers and tub surrounds, they are equally striking and sophisticated in other areas of the home or office.

Four foot wide panels join with either color matched silicone adhesive or a color matched minimalist seam trim. The result is the look of natural stone at a considerable cost savings.

▲ KI31 | **SABANA GREY**  
Finish: Glossy or Honed

No two natural stone surfaces are ever identical. Even in the most understated designs, nature introduces gentle variation. Each slab features five distinct yet harmonious panel patterns, thoughtfully designed to mirror the organic flow and movement found in genuine stone.

As mentioned before, TRINITY Panels are waterproof and heat resistant, which are perfect as a kitchen backsplash. Also, panels are simple for cutting outlets and switches.

TRINITY walls are modern, lightweight aluminum panels engineered with a durable 3-layer construction and a slim 4mm profile for a sleek, contemporary look. Available in a wide range of monotone and duotone natural stone and marble-inspired colors, they offer flexible design options to suit any aesthetic. Designed for easy installation, these panels are most commonly used in showers but are equally suited for creating a clean, modern appearance throughout the home, including kitchens, living rooms, and offices.
